(verse)

You know what buttons to push  
You know what arm to punch  
And in the heat of day  
When your emotions rush

(chorus)

I'm not gonna be  
I'm not gonna be  
You're punching bag

(verse 2)

You force others to follow  
The tangled places you dwell  
But there's nothing there but fragments  
Of your own personal hell

(chorus)

I'm not gonna be  
I'm not gonna be  
You're punching bag  
I'm not gonna be  
No I'm not going down

(bridge)

I'm not gonna play your endless game  
Of dark angry words  
That always, seem to flame  
There's a pasture of green  
Always prayed you'd fall into  
But your soul beneath can only scream  
I wish you calm and peace my love  
But until you.....

(chorus)

I'm not gonna be

I'm not gonna be

You're punching bag

I'm not gonna be

No, I'm not going down

No
